## COATINGS

### PROTECT & ENHANCE YOUR INVESTMENT WITH HIGH PERFORMANCE EXTERIOR COATINGS

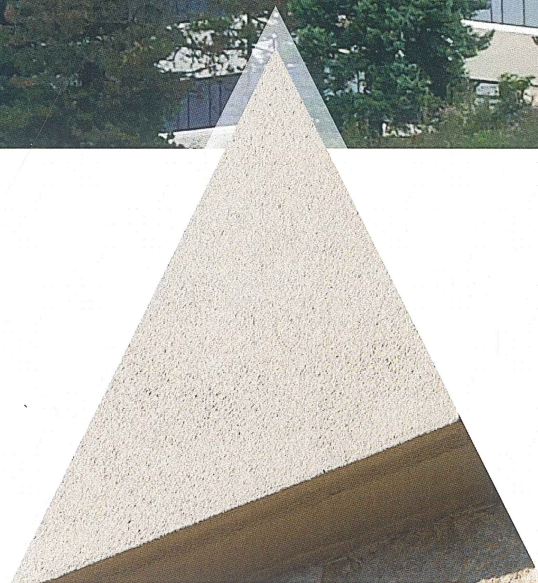

Witmer Coatings, LLC specializes in the application of high-performance exterior coatings for residential homes and commercial buildings. We protect and enhance exterior finishes constructed with EIFS (Exterior Insulation and Finish Systems), stucco, brick, stone, concrete, all types of masonry and more. We follow a regimented approach that involves meticulous preparation, extreme care to protect your home or building, and expert application of the highest quality materials.

Witmer Coatings is part of The Witmer Group family of companies, an award-winning masonry team with over 45 years of experience and a reputation for exceptional craftsmanship.

#### COATINGS SERVICES INCLUDE:

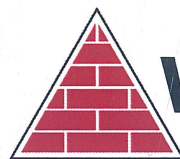

- EIFS, Dryvit® and Stucco Cleaning
- EIFS, Dryvit® and Stucco Recaulking
- EIFS, Dryvit® and Stucco Coatings
- EIFS, Dryvit® and Stucco Repairs

Witmer Coatings will clean, repair, seal and coat any damaged or worn areas of your home or building before they turn into significant problems that are more difficult and expensive to fix. We consider the various building façade materials that require different coatings, environmental conditions, water issues, and the specialized equipment required to complete the job safely and accurately. We also work around your schedule to minimize interruptions in your daily routine.

#### THE WITMER DIFFERENCE

- A reputation for high standards and excellent craftsmanship
- Expertise beyond the traditional
- Experience you can trust
- Earn customer respect through outstanding service and work

## REFRESH & RENEW YOUR HOME'S EXTERIOR

Exteriors are an integral part of your home. They provide visual appeal and protection from harmful elements that can lead to damage. Witmer Coatings can:

- **Vastly Improve Your Curb Appeal**  
Curb appeal is the first impression of your home. A beautiful exterior can improve your curb appeal and add value to your home. Our high-quality line of exterior coatings can freshen up the look of your home, and help prevent fading and aging.
- **Protect & Repair Your Exterior Finishes**  
Over time, the exterior finish of your home can deteriorate. Witmer Coatings will clean, repair, seal and coat any damaged or worn areas of your home before they turn into significant problems that are more difficult and expensive to fix.

The right exterior finishes, applied properly, will renew and strengthen surfaces that have deteriorated or become unsafe. It all starts with careful and detailed preparation of your home's exterior and a set of established processes to ensure the precision of our work.

## ADD VALUE TO YOUR PROPERTY & BUSINESS

Your building's appearance can say a lot about your business. When potential customers see a faded and worn exterior, they may also see them as a reflection on your business. Witmer Coatings focuses on protecting and enhancing the exterior of commercial buildings constructed with EIFS (Exterior Insulation and Finish Systems), stucco, brick, stone, concrete, masonry – and more. Witmer Coatings can:

- **Improve Your Street Appeal**  
A customer's view from the street is the first impression of your business. A clean, beautiful exterior will create an inviting look and add value to your property and business. Our high quality line of exterior coatings can freshen up the look of your building and help prevent fading and aging.
- **Repair, Protect & Waterproof Your Buildings**  
Over time, exterior finish of your building can deteriorate. Witmer Coatings will clean, repair, seal and coat any damaged or worn areas of your buildings before they turn into significant problems that are unsafe, and more difficult and expensive to fix.
- **Provide Value with High Performance**  
Our high-performance coatings are "breathable," which means moisture occurring naturally beneath the surface escapes through the layer as vapor. This helps to prevent blisters, cracking and damage to the substrate. Your surface will withstand many, many years of exterior exposure. Our coating products are energy efficient, easy to maintain, provide long term color retention, fire resistant, durable, and mold & mildew resistant.
