## SPECIALTY SERVICES

Witmer Masonry is the premier contractor for large commercial, educational and private masonry projects in Pennsylvania, Maryland and Delaware. We solve complex masonry challenges, and specialize in intricate masonry design requiring superior craftsmanship. We have partnered with leading architects, engineers, and contractors to build some of the most notable projects throughout the region.

**CONTACT:**  
**WAYNE FUHRMAN**

Witmer Waterproofing is a full-service waterproofing, air/vapor barrier and caulking contractor for commercial, institutional, and industrial properties. We work with existing facilities or new construction of any scale. We often work on complex commercial projects with unpredictable schedules, changes and challenges. We are trained and certified by many of the leading waterproofing product manufacturers.

**CONTACT:**  
**BOB GINGRICH**

Witmer Coatings focuses on protecting and enhancing the exterior of commercial buildings constructed with EIFS (Exterior Insulation and Finish Systems), stucco, brick, stone, concrete, masonry - and more. Our services include cleaning, recaulking, repairing and coating. We partner with architects, engineers, and general contractors on large commercial coatings projects such as schools, retirement communities and medical facilities.
