YOUR TRUSTED COATINGS TECHNICIANS

The foundation of our expertise and craftsmanship lies in our understanding of the coatings for concrete floors as key to extending the life that supports smooth operations and productivity. Our capabilities go beyond the building's floors with versatile chemical polymer products that address challenges inside of the building. Witmer Coatings offers a variety of floor coating, and resurfacing, including urethanes, epoxy resurfacers, and chemical-resistant coatings.

Your trusted coatings technicians.

We understand that every facility is unique and requires a customized solution. That's why we work closely with our clients to develop a comprehensive plan that meets their specific needs. Our team of experts has years of experience in the industry and is equipped with the latest technology and equipment to deliver exceptional results. Our coatings and resurfacing solutions are designed to withstand even the toughest conditions, ensuring that your facility remains safe, clean, and productive.

Durable Concrete Coatings for Commercial Spaces

Well-maintained, attractive floors reflect professional excellence. They demonstrate a commitment to quality and your concern for a clean, safe facility for customers and employees. Coated floors eliminate concrete dusting. Increased brightness and light reflectivity contribute to more efficient lighting needs and cleaning costs.

Advanced Coatings Technology for high-protection and specialty urethane and epoxy applications, along with joint and crack repair, provides:

- Concrete Surface Protection
- Easy maintenance
- Extend the life of your floor
- Compliance with operations, safety, and environmental requirements
- Increased productivity
- Creates a smoother ride for material handling vehicle operators
- Less frequent replacement material operating vehicle parts and wheels

We use the most durable products tailored to meet any traffic need:

- Environmentally responsible products such as Hi-Wear Urethanes
- Decorative Epoxy Quartz
- Chemical Resistant Coatings
- Urethane and Epoxy Coatings
- Resurfacers up to 1/4"
- Urethane Cement
